The Academic Interactive-Communicator

Record, Playback, Collaborate: It's That Simple
Effective Web Based Information Exchange: Anytime, Anyplace!

Lecture123 provides a Just-In-Time Communicator to simplify delivery of learning content for traditional and online courses. Students are engaged with an intuitive, two-way interactive, asynchronous solution. Record, playback, and collaborate on your own schedule from any location.

- Combine slides, whiteboard, voice, and annotation into an easy to use communication environment
- Questions asked during playback are answered by your faculty experts and automatically integrated into the content
- No learning curve
- Develop your material in PowerPoint – Lecture123 does the rest
- Immediately available for interactive web-based playback
- Searchable, reusable, and editable
- No pre or post production costs
- Excellent playback quality over standard phone lines
- Monitor playback usage and Question/Answer exchange
- Operates with firewalls and proxies
- Podcast your sessions
- Portal access to hosted content
- Simple URL integration with all course management systems
- Content metamorphosis with a repository of knowledge objects
- Web based for all computing platforms
- Secure, authenticated access
- Service provider and on-site environments
- Full service consulting

Meeting Your Academic Needs
